Changes in the healthcare industry and the trend to integrate oral health and primary medical care is bringing many new challenges to the dental practice.

There is an increased need for the dentist and team members to become familiar with both ICD-10 (diagnosis) and CPT (medical procedure) codes. This basic two hour course is designed to be an introduction and eye opener to medical dental cross coding.

This course is not for the experienced medical claim biller but rather will equip the participant with the basic knowledge of ICD-10 and CPT code sets to successfully complete a medical claim form.

Medical Dental Cross Coding with Confidence with Dr. Charles Blair

In States Where Applicable
Medical Dental Cross Coding with Confidence with Dr. Charles Blair

Objectives:

- The participant will understand the purpose of the different code sets used in reporting medical procedures, including CPT, HCPCS and ICD-10-CM.
- Identify the most common dental procedures submitted to medical payers.
- Gain a basic knowledge of how to submit claims to a medical payer on the HCFA 150 (02-12) claim form.

Dr. Charles Blair is dentistry’s leading authority on insurance coding strategies, fee positioning and strategic planning. He has individually consulted with thousands of practices, helping them identify and implement new strategies for increasing legitimate reimbursement. Dr. Blair’s extensive background and expertise makes him uniquely qualified to share his wealth of knowledge with the dental profession. A widely-read and highly-respected author and publisher, he currently offers several publications, Coding with Confidence, Administration with Confidence, Diagnostic Coding for Dental Claim Submission, Medical Dental Cross Coding with Confidence and the Insurance Solutions Newsletter. Also through his expertise, he founded PracticeBooster.com which optimizes insurance administration and aids in maximizing reimbursement. He holds degrees in Accounting, Business Administration, Mathematics and Dental Surgery.
